

Integrated control, telemetry and SCADA systems

Serck Controls provides solutions and services for Power, Mining, Water & Waste Water, Oil and Gas, Food and Beverage, Materials Handling & Sustainable Solutions Industries.

An excellent opportunity exists within our Sydney office for a Lead Control Systems Engineer seeking to develop their career in a challenging and dynamic environment.

Lead Control Systems Engineer

You will be part of the company's Major Projects group, responsible for delivering projects utilising our own products as well as integration of major 3rd party PLC and SCADA products, for a range of industries, including utilities, mining and manufacturing.

The role will involve leading project teams on all phases of project implementation. The position is based at our Sydney office located in Regents Park. Serck and 3rd party product training and support will be provided.

Skills and experience in the following areas will be required:

- Leading Project teams and successful management , delivery and reporting of projects or major project work packages
- Control system functional design and documentation,
- PLC and/or RTU, and SCADA configuration and programming,
- Control system testing and commissioning

Experience in the following areas will be an advantage ;

- Prodef CASE tool
- Siemens S7, Schneider Unity or Concept programming
- Water, Wastewater treatment plant process control

Applicants should have as a minimum :

- Degree or diploma qualification in a relevant engineering discipline, and 10+ years relevant industry experience;

Other requirements for the successful candidate are the ability to :

- work independently and in a team environment ;
- focus on meeting project time, cost and quality goals and exceeding customer's expectations ;
- undertake commissioning in an industrial environment ;
- interact with customers and vendors, and represent the company professionally.

A competitive remuneration package will be offered with the role depending on experience & qualifications.

Enquiries and applications should be attention to the 'HR Manager' - Email - hr@serck-controls.com.au
