

Software Engineer Vacancies Serck Controls – Extending Your Reach

We are currently seeking to recruit a number of individuals who are looking to start a career within an International dynamic SCADA and Telemetry company. With us you'll have challenging projects to work on and great people to work with.

Serck Controls supplies the international utilities marketplace with high technology data acquisition and control products, systems and services. These systems monitor and control distributed resources such as Oil, Gas, Water and Electricity Services.

The Software Engineer positions are available for people who will enjoy working alongside our Systems engineers to implement Serck Controls' systems. Specific work areas include Real-Time Databases, SQL, Serial Communications & Protocols, Local & Wide Area Networking, C, C++, Visual Basic and MS Windows Configuration. Previous experience of some of these would be an advantage.

For our Software Engineer positions, applicants should hold an honours degree in IT/Software/Electronic Engineering or a related subject.

Applications should be made in writing, enclosing a copy of your CV, to:

Linda Reeves, Serck Controls Limited, Rowley Drive, Coventry,
West Midlands, CV3 4FH Telephone: (024) 7630 5050 Fax: (024) 7630 2437
